

## Key Transportation 2030 Issues:

1. Preserving flexible funding — state funds from the Regional Transportation Improvement Program and State Transit Assistance in particular — to allow the implementation of a balanced transportation system in Napa County.
2. Integrating land-use and transportation decisions, and making effective use of MTC's Transportation for Livable Communities/Housing Incentive Program.
3. Implementing key transportation projects:
  - State Route 12 through Jameson Canyon
  - State Route 12/29 interchanges at Airport Boulevard, Soscol Avenue and Carneros Highway
  - Future rail service to Solano County
  - Downtown Napa multimodal facility
  - Express bus service along the State Route 29 corridor
  - Local street and road maintenance
  - Expanded bicycle/pedestrian facilities

## Public Meetings:

- **NCTPA Board:** 3rd Wednesday of the month at 2 p.m.
- **Paratransit Coordinating Council:** 1st Wednesday of the month at 1:30 p.m.
- **Technical Advisory Committee:** 2nd Wednesday of the month at 1:30 p.m.
- **Bicycle Advisory Committee:** 1st Monday of the month at 7 p.m.

*Meeting locations vary. Please call 707.259.8631 or visit the NCTPA Web site at [www.nctpa.net](http://www.nctpa.net) for the location of specific meetings.*
